Dear sir,

This is the public fear that whatever suggestions are given to government for improving governance will go waste . So please let it not happen to reforms suggested in enclosed pages. A summary of reforms required is also enclosed. These are developed by our society with great pains.

Our only wish is that you please go through the changes in system recommended, to pass them on to appropriate committee/members for making them feasible and to take steps for their implementation at the earliest . These are also relevant to achieve objectives behind articles 41,42, 45 & 47 of constitution of India. This can be the great gift to Indian public from Indian Government on the eve of next general elections .

Kindly intimate the status of steps time to time.

Faithful to all our brethrens,

For ACTION FOR CHANGE NGO
